The composition of the Motos for each category, as well as the transfer system for all Phases of the event is determined as per Annex 1 of Part VI: BMX. All riders entered in each category must participate in the Motos in order to be eligible to transfer to the Qualifiers.

**Important Note: The UCI reserves the right to change the championships race format should unforeseen circumstances require it (example: severe weather). Should this happen, an official communique describing any changes will be sent to all team managers.**

**Important Note: The UCI reserves the right to change the challenge or masters race format, should unforeseen circumstances require it (example: severe weather). Should this happen, an official communique will be sent to all team managers.**

Also, in case a very high number of challenge entries are received, the UCI may decide to change the race format from 3 rounds of Motos to either 2 rounds of Motos or 1 round of Motos before the event begins. If done, this will be decided following the closure of registration once the number of entries is known. If a change is made, it will be announced during the challenge and masters team managers’ meeting.

**Other extracts**

**6.1.002 Age of participation**

For participation in BMX events registered on the UCI International BMX Calendar,
Riders’ categories are determined by the age of those competing as defined by the difference between the year of the event and the year of birth of the rider. Riders categories vary depending on the bicycle types defined in article 6.1.003, levels of categories as defined in article 6.1.004 as well as competition specialities as defined in article 6.1.007.

A rider must be at least 5 years of age to compete in a UCI sanctioned BMX event. The minimum age of 5 refers to the real calendar age on the day of BMX event commencement (date of the first practice session).

As concerns the minimum age described above, the categories held during the UCI BMX World Challenge are defined in article 6.4.005bis. Otherwise, the categories defined in articles 6.1.009 to 6.1.011 apply. (text modified on: 01.01.19)

6.1.012 Combination rules
(N) In order for a category to be held, at least five riders must be registered and confirmed in that category following riders confirmation.

If less than five riders are entered in a category following riders confirmation, they will be combined with an older category. However, categories for Cruiser 24 inch bicycles with a maximum age of more than 34 shall be combined with the next younger category.

Categories for Standard 20 inch bicycles cannot be combined with Categories for Cruiser 24 inch categories, and vice versa.

In the case that any under-subscribed category cannot be combined according to these rules, this category shall not be run.

If the adequate numbers of five riders are registered and confirmed during the riders confirmation, the category will be run even if less riders show up at the start, regardless of the reason, including injury or illness.

Combination of Categories and Results

6.1.014 (N) In any case where two or more categories are combined, the results of the combined categories must be split back into the original, separate categories based on the results summary for the combined categories.

The UCI will only award points in the UCI BMX ranking based upon the separated results.

Also, the riders are awarded the prize money that corresponds with their place in the separated results.

Example: Class 1 event combination Women Elite and Women Juniors

6.1.015 Except as provided by the combination rules in articles 6.1.012 and 6.1.013, no rider is permitted to compete outside of his age or gender group during UCI registered events.

Final Classification

6.1.041 The Final Classification of the BMX event for each category (or combined category) is determined by:
   a. The Phase reached (Final, Qualifiers, or Motos
   b. If the Phase reached is the Final or the Qualifiers, the rank from the last completed Round within that Phase.
   c. If the Phase reached is the Motos, the total points from this Phase. In case the Motos are not completed, then the total points from all Rounds of the Motos that were completed.
   d. The time in the last heat completed, in case of ties the time from the previous heat is considered.

When the tie cannot be broken by time, then the tie-breaker in article 6.1.041ter shall apply.

(text modified on 01.01.18).

6.1.041bis
(N) In case of a combination of categories, the Final Classification for the combined category is split in accordance with article 6.1.014. A Final Classification for each individual category is then prepared.

Ties

6.1.041ter
This tie-breaking method is used in the following cases:
   a. In case more than 1 rider in a heat is scored with the same IRM as described in articles 6.1.034 and 6.1.035;
   b. In case a tie occurs in any particular heat where a clear decision cannot be determined from the applicable scoring system in the transferring positions in the Motos, or the Qualifiers;
   c. In case a tie occurs when determining the Final Classification, as described in article 6.1.041.

In all of the above cases, the tie will be broken by applying the following methods in the order listed below until the tie is broken. In case a method is either not available or not applicable to the situation, then the next highest priority tie-breaking method will be used.
   a. Time in the previous heat
   b. Position in the previous heat
c. If applicable to the situation, the rider’s best finish (time, or if not available, finish position) in the preceding qualifiers preceding in descending order of Semi Final, Quarter Final, Eighth Final, et cetera, until the Motos are reached
d. In descending order 3rd, 2nd, 1st round finish result in the Motos
e. BMX Time Trial results (if held)
f. For Championships categories, the UCI Individual BMX ranking, or for Challenge level and Masters categories, the national ranking or series ranking used for seeding the Motos, if any
g. In the case of breaking ties between riders scored with the same IRM, at random.

Otherwise, if the tie can’t be broken according to the above method, then the riders concerned shall share the place in question, and the place(s) below would not be allocated. For example: 2 riders tied for 5th place in the semi-finals would both receive 9th place in the Final Classification; the next place awarded would be 11th place.

(text modified on 01.01.19)

6.1.041 quarter
Should a situation arise in a heat in one of the three Rounds of Motos or non-transferring positions of a heat in the Qualifiers or in the award positions in the Final where a clear decision cannot be determined from the applicable scoring system, both riders will be scored with the better ranked finishing position. For example: a protest between 4th place and 5th place finishing position would in the case of a tied decision ultimately give both riders 4th place finish in that particular heat; 5th place would not be allocated.
Award positions in the Final shall refer to the riders ranked 1st to 3rd for the Championships and Masters categories and 1st to 8th for the Challenge categories.

(text modified on 01.01.19).

6.4.010
Competition categories shall be as described in articles 6.1.009 to 6.1.011. In order to give the best chance of completing each day of the UCI BMX World Challenge within a reasonable period of time, the UCI reserves the right to change the number of Rounds of Motos that will be held for some or all of the Challenge and Masters categories should it decide that conditions (weather, large number of entries, or other) require it.

The UCI BMX World Challenge for each Challenge or Masters level category shall take place on the day it is scheduled, and shall not be rescheduled. Once competition has begun on any given competition day, in case of cancellation prior to the Final, the results will be determined on the basis of the racing completed for each category in question in accordance with article 6.1.041. For any categories in which at least one round of racing has not been completed, such cancellation shall mean that no results are declared for those categories.

(text modified on 01.01.18).

Please take note of the following:

- On site requests (requests that are made after the on-line accreditation is closed) will be limited in number and subject to evaluation on a case-by-case basis. Approval of such late requests cannot be guaranteed even if quota mentioned above has not yet been reached. **We strongly recommend that accreditation requests are made using the on-line system.**

- The Challenge and Masters team manager can only collect the accreditation badges for the Challenge and Masters team staff, and not those for the Championships team staff (unless the team staff are the same as for the Championships categories).

- Team staff (including team managers) working for both Challenge and Championships categories should only be registered as Championships staff; the badge they receive will be valid for both.

- **Challenge team staff accreditations will not allow access to the team area once the races for the Challenge and Masters categories have finished.**

6. Number plates

6.1.091 Each bicycle entered into competition must have a number plate attached to the front of the handlebars. This number plate will be provided by the UCI. Riders must use the received number plate and number colour combinations specified for the category in which they are racing as follows:

Championship level
- Elite Men, Elite Women: white plate, black numbers;
- Men Juniors, Women Juniors: black plate, white numbers.

Challenge level/Master level
- Masters, Men, Boys: yellow plate, black numbers;
- Girls, Women: blue plate, white numbers;
- Cruiser: red plate, white numbers;

During the 2019 UCI BMX World Championships all riders must display a lateral number plate/sticker located just behind the steer tube. The UCI and the organiser will provide a lateral plate for the 2019 UCI BMX World Championships.

In all UCI sanctioned BMX events a rider must display the number assigned to him according to the rules set forth in § 6. A rider who fails to display the correct number will not be scored.

Comment: In practice, this means that a rider without the correct number may either be refused their start and scored as DNS, or scored as REL, depending upon when the error is noticed.

The area of the plate that provides a background for the number must, during the entire duration of a competition, be kept free of markings, stickers or other impediments to the number’s legibility. Riders may not cut, mutilate or put additional stickers or marking on their number plate during the 2019 UCI BMX World Championships.

7. Team area + Team Bibs

Team area

Each country will have a dedicated team area; 4 Chairs and 1 table are provided for every 20 entries. **Due to the limited space in the team area, only riders who have a competition or**
practice that day will be allowed to enter the team area with their bike. Please make your riders aware of this. Also, countries with smaller numbers of entries may be grouped together.

Team Bibs – Championships Categories Only

One team bib is available for each national federation; it allows the wearer to access to the locations described during the Championships Team Managers’ Meeting. A deposit of 100 Euros or 100 US dollars against the return of the bib must be paid during riders’ confirmation; this will be returned following the return of the bib after the event on Saturday, 09th June. One team bib will also be granted to each UCI BMX Team upon request. National Teams with 4 or more riders entered in any category may request a second team bib if enough remain once each National Team or UCI BMX Team has had an opportunity to request a single bib; this will be done on a first come, first served basis.

When?
Bibs can be obtained during riders’ confirmation for the championship categories:

Friday 26th July 2019, from 12:30 to 15:00

8. Team Managers meeting

When?
Challenge and Masters Team Managers’ Meeting:

Saturday 20th July 2019, 10:00 – 11:00

Important: Team managers must first receive their accreditation badge before attending the Team Managers meeting, as it will be required to access the meeting.

Approval of national team clothing by the PCP will be done at the end of the team managers meeting.

Following the Challenge and Masters team managers’ meeting, team managers will be guided in and around the venue to explain the riders flow. The meeting point for the venue tour will be specified during the team managers’ meeting.

Championship Team Managers’ Meeting:

Friday 26th July 2019, 12:00 – 12:30

Important: All team managers (challenge and championships) must first receive their accreditation badge before attending the Team Managers meeting, as it will be required to access the meeting.
Approval of national team clothing for Championships classes by the PCP at the end of the team managers meeting.

Comments: The national team jersey is regulated in article 1.3.056 and the following.

Jerseys must be approved by the PCP after the team managers meeting on Saturday 02nd June 2019 (for the Challenge and Masters categories) or on Thursday 07th June 2019 (for the Championship categories.) See section 8 of this document for details.

To speed up the approval process, we ask teams to e-mail a photo of their jersey design (front and back) to Roxane Alt (roxane.alt@uci.ch) before arriving at the event.

For the Team Manager meetings, only the Team Manager and one additional team representative are allowed.

Where?
Circuit Zolder
Terlaemen 30

Exact location to be announced.

9. Program

Please see Appendix C. The schedule is subject to change.

No refunds of entry fees, nor any form of compensation will be made in case of any delay, schedule change, change of the race format, cancellation, error or omission.

10. Race Equipment and Clothing

6.1.081 Helmets must be of full face construction and must be equipped with a visor that has a minimum length of 10 cm. Open face helmets are not allowed. In accordance with article 1.3.002, neither the helmet nor its visor may be modified.

Helmets must be worn with the straps securely fastened whenever a rider is practicing or racing or is otherwise within the track boundaries.

When racing, from the start of a heat or run until the point in time when a rider completes the heat or run by crossing the finish line, if a rider’s helmet is removed for any reason, that rider shall be considered as having abandoned the heat or run in question and will be scored as Did Not Finish (DNF).

The UCI strongly recommends that riders wear the following protection:
- Back, elbow, knee and shoulder protectors made of rigid materials
- Protection of the cervical vertebrae.
6.1.087 Any added aerodynamic accessories on personal equipment are not permitted.

6.1.088 Cameras are not permitted during racing. Otherwise, the riders are responsible for securing the fixation of the cameras in order to avoid any danger. The UCI can decide to allow a camera during racing but only for the usage of the TV production company. Metal / permanent fixtures to attach the cameras are not allowed, tape and velcro are allowed.

Cameras (as described above) may only be used by riders in the Championship level categories.

*Note: The practical implementation of this rule means that on-board video cameras will only be accepted if they are attached to the helmet visor or the bicycle (in a way that does not present a safety risk). Cameras must not be directly attached to the helmet itself. Such cameras can only be used once the waiver valid for the 2019 season has been signed by the riders.*

6.1.097 Each rider that has received a UCI permanent number and the riders with a world number 1-8, may print their number on the jersey according to the specifications explained in article 6.1.097. Doing so is not mandatory.

11. Official ceremonies

The following points apply to the official ceremonies for Championships classes:

9.1.044 Within 10 minutes following the end of each race (unless otherwise provided and duly recorded in an official communiqué), the World Champion, the second and the third placed riders shall be ready for the official ceremony that shall be conducted under the responsibility of the President of the Commissaires Panel.

The top 3 riders in Championships and the Top 8 riders in challenge and masters will be stopped after the finish line and taken along to the waiting area for the awards ceremony.

9.1.046 Riders shall appear in racing attire, wearing their national jerseys but bare-headed and without headband or glasses, until they leave the official ceremony enclosure.

9.1.050 A World Champion may not wear the jersey identifying his title and bearing the regulation advertisement of his main sponsor (s) until, at earliest, the day following that on which he received it.

9.1.051 Any infringement of the provisions of the above articles (9.1.044 to 9.1.050) shall be punished by a fine of CHF 2’000 to CHF 10’000 minimum. A higher fine may be imposed depending on the advantage derived from the offence.

12. Prize scales

To follow the same procedure as in other UCI cycling disciplines, the prize money won by riders in the World Championships will be transferred to each rider’s federation. Each rider can thereafter collect
the prize money through his/her federation. Note that the UCI will pay after the results of the anti-
doping tests have been confirmed.

*Prize scales in appendix D*

The top 8 riders in Challenge and Masters categories will receive a trophy.

13. Delays

Teams are advised that the weather may require a delay in certain cases, as may any other
unforeseen circumstance or force majeure. It is possible that significant delays in the practice or
racing program may be experienced. The UCI will follow the instructions of civil authorities
concerning any such delays.

In case of a delay, the procedure used to inform the teams what will happen will be discussed during
the team managers’ meeting.

For the Challenge and Masters categories, the impact on the event will be as follows:

**During Practice:**
- Should a delay happen during practice, if possible, extra practice time may be given to those
countries that experienced the delay. However, depending on the situation, it may not be
possible to extend or replace any shortened or cancelled practice. In such case, the UCI’s
decision shall be final and can not be appealed.

**During Racing:**
- Should a significant delay happen during racing on any of the challenge or masters category
racing days, it may not be possible to finish the World Challenge for those categories,
depending upon the length of the delay.

The competition for each challenge and masters category will take place on the day that it is
scheduled to occur without any postponement. In case of any cancellation, the competition
for the affected categories will not be completed, and the results will be determined based
upon the racing that has been completed for each such category.

- Should a significant delay occur, depending upon the amount of racing remaining at 22h00
local time, the UCI may decide to stop the event for the concerned categories. In this case,
the results will be decided in accordance with article 6.1.041 for each category, based upon
the racing that has been completed for each such category. Should this happen, any ties that
prevent a clear determination of the top 8 riders within each affected category will be
broken using the special derogation found earlier in this competition guide. The UCI’s
decision to stop the event for the concerned categories shall be final and can not be
appealed.

For the championships categories, the following procedure will be used:

**During Practice:**
- Should a delay happen during practice, if possible, extra practice may be given to those
categories that experienced the delay. However, depending on the situation, it may not be
possible to extend or replace any shortened or cancelled practice. In such case, the UCI’s decision shall be final and can not be appealed.

During Racing:

- Should a significant delay happen during racing, it may not be possible to finish the World Championships, depending upon the length of the delay.

The competition for the championships categories will take place on the day that it is scheduled to occur, without any postponement. In case of any cancellation, the competition for the affected categories will not be completed, and the results will be determined based upon the racing that has been completed for each such category.

- Should this occur, depending upon the amount of racing remaining at 23h00 local time, the UCI may decide to stop the event for the concerned categories. In this case, the results will be decided in accordance with article 6.1.041 for each category, based upon the racing that has been completed. The UCI’s decision to stop the event for the concerned categories shall be final and can not be appealed.
